Chapter 1: The Science of Psychology - Research Methods in Psychology. Many people believe that women tend to talk more than men—with some even suggesting that this difference has a biological basis. One widely cited estimate is that women speak 20,000 words per day on average and men speak only 7,000. This claim seems plausible, but is it true? A group of psychologists led by Matthias Mehl decided to find out.

1\$ Chapter 1: The Ladder of Causation In the Beginning... I was probably six or seven years old when I first read the story of Adam and Eve in the Garden of Eden. My classmates and I were not at all surprised by God's capricious demands, forbidding Adam from eating from the Tree of Knowledge. Deities have their reasons, we thought.
