Bodie, Kane, and Marcus' Investments and Portfolio Management sets the standard for graduate/MBA investments textbooks. It blends practical and theoretical coverage, while maintaining an appropriate rigor and a clear writing style. Its unifying theme is that security markets are nearly efficient, meaning that most securities are priced appropriately given their risk and return attributes.

This module assumes basic knowledge and understanding of risk-return relationship, portfolio theory, and CAPM. It considers the investment and portfolio management decision in more detail by first examining the asset allocation decision and investments in a global context. It then attempts to evaluate different types of securities (bonds and stocks) in which investments can be made using a three-step top-down approach consisting of macro- and micro-market analysis, industry analysis and ...
