Sensor Glow Plug For
Hidria Dieseltec This
is a glow plug which is
upgraded with a
special sensor to
measure the pressure
in the combustion
space of the cylinders
of diesel engines. The
sensor is mounted
around the heating
element of the glow
plug. Its construction

File Type PDF

Pressure

enables extremely precise measurement in real time during combustion of the fuel.

Glow Plugs (PSG)

The sensor and electronics in the pin of the PSG optimise performance of the glow plug, significantly reducing particle emissions in order to meet and exceed current exhaust gas limit values.
