In recent years, innovative textbooks in foreign languages, science, mathematics, and other fields have achieved dramatic pedagogical gains by abandoning the traditional encyclopedic approach in favor of teaching a shorter list of core principles in depth. 2 well-respected researchers and authors, Ben Bernanke and Robert Frank, in the ebook Principles of Macroeconomics 5th edition have shown that the less-is-more approach affords similar gains in introductory economics. The authors introduce ...

Although recent editions of a few other texts have paid lip service to this new approach, Frank/Bernanke is by far the best thought out and best executed principles text in this mold. Avoiding excessive reliance on formal mathematical derivations, it presents concepts intuitively through examples drawn from familiar contexts.
