It is not only firms who innovate; public sector entities also innovate by introducing new approaches to provide quality public services and better respond to society's needs. The public sector includes all public corporations and general government at central, state and local levels.

Public Sector Innovation | Innovation Policy Platform

Evidently, innovation in the public sector has long been criticised for its failure to fulfil expectations of higher efficiency and better service. Therefore, the paper presented various barriers (e.g. cultural differences, conservative solutions, resistance to change and a culture of inferiority) to overcome to promote innovation in the public sector. In addition, the paper intended to support scholars and practitioners in highlighting critical issues necessary to foster an innovation ...

Innovation in public sector organisations

Public sector organisations, charities and foundations around the world are recognising the potential of design to solve social and environmental challenges. Problems are complex, require more than one answer and organisations need to work together with citizens to prevent problems from occurring in the first place. Design can help you to, diagnose problems, evaluate the

The 21 Public Sector Innovations below include everything from telework enablers to cloud-based reinvention to next-gen cybersecurity. In some cases, the technology itself is transformative, while in others creative use of readily available tools is the game-changer. All, however, show how IT and innovation can dramatically improve government. And while these examples are impressive enough on their own, they're just one part of our larger Government Innovation Awards program.
