The state in the Middle Ages had government but, in real terms, it was guided by the diktat of the Pope. Naturally the king had no authority to take any decision. The state in the medieval period was a religious state. It was believed or the people were made to believe that both the state and its rulers were the creation of God. God was the ultimate source of all authority.

Concept of \"State\" in Medieval Period Explained!

Government in the Middle Ages \" Feudalism. The prevailing system of government in the Middle Ages was feudalism. Though the actual term \"feudalism\" was not used during the Middle Ages, what we now recognize as a feudal system of government was in control in Medieval Europe. Feudalism was a way for the Kings and upper nobility to keep control over the serfs and peasants.

The legacy of the Middle Ages was so intractable that the emergence of nation-states was very slow. It may be argued, however, that the modern period was born during the reign of Henry VIII of England (reigned 1509-47), when that king more or less simultaneously declared himself head of the national church and his realm an empire sovereign and unanswerable to any foreign potentate, particularly the pope .

The political situation in medieval kingdoms was further complicated by the position of the towns. The towns and cities. We have seen above that medieval kingdoms were not unified states in the modern sense, but were more like federations, with the monarch being the \"first amongst equals\" when it came to his magnates.

Developments in government and warfare in Medieval Europe

Church and state in medieval Europe includes the relationship between the Catholic Church and the various monarchies and other states in Europe, between the end of Roman authority in the West in the fifth century and the beginnings of the Reformation in the early sixteenth century. The relationship between the Church and the feudal states during the medieval period went through a number of developments. The struggles for power between kings and popes shaped the western world.

Church and state in medieval Europe - Wikipedia

In Europe new republics appeared in the late Middle Ages when a number of small states embraced republican systems of government. These were generally small, but wealthy, trading states, like the Italian city-states and the Hanseatic League, in which the merchant class had risen to prominence.

Medieval Politics revolved around the affairs of monarchy and nobility and ties in with the practice of feudalism. Under feudalism, every member of society knew his or her place and social upward mobility was either extremely difficult or impossible depending on your circumstances. The order of hierarchy came as follows in the feudal state:

Similarly Dr. Ishwari Parsad says that like other Muslim states, the state in Medieval India was a theocracy. The king was both Caesar as well as Pope. But, his authority was restricted by the principles of Shariat. His rule was based on religion and the Ulemas predominated the State.

Nature of State in Medieval India - History Discussion

A state is a polity under a system of governance. There is no undisputed definition of a state. A widely used definition from the German sociologist Max Weber is that a "state" is a polity that maintains a monopoly on the legitimate use of violence, although other definitions are not uncommon.
